

Jump-start your studying with a small workshop on creating a study plan. In a small group setting, I will walk you through the various steps of efficiently preparing a study plan that will keep you on track. Here's what you need to do:

## 1

### ARRANGE A SESSION

- Arrange a date and time that works for 2 - 8 CCNM students (and me). Email me at [cbeernink@ccnm.edu](mailto:cbeernink@ccnm.edu) to negotiate date and time.

## 2

### BRING MATERIALS

- a copy of the NPLEX blueprint (available on Moodle)
- a pencil and eraser
- your personal calendar
- your study materials if you have them already.
- If you tend to use technology to keep track of your life, you should bring that too!

*I'm looking forward to contributing to your success!*
