NSA

- As of right now, nothing to report.

Updates/announcements:

Meghan Henesey: Maintaining your CPR certification is important. Students whose certification has expired were notified and given a deadline to submit a new certification.

Dr. Tokiwa: On May 3, 2024, the University of Ottawa will be hosting an inter-professional virtual workshop. Once all details have been received a communication will be sent out.

Year 3 and IMG clinic entry requirement - To confirm entry in May, all previous course requirements must be completed.

Dr. Carino: There are plans ahead to include a cadaver experience in BMS250. A schedule is being worked on, looking at approximately 12-14 hours, likely on Monday afternoons, starting in March. This is to provide a tactile experience to supplement and reinforce lessons learnt.

On January 28, 2024 at 2:00 pm, there will be a residency information session.

Ahmed Kandil: Students are being reminded to complete student feedback surveys. When only a few students participate this does not empower the college to make the necessary changes.

Meeting adjourned by Dr. Zeifman
